### **ICD-10 transition training materials for AHLTA users**

The following presentations were produced for the Air Force Medical Service, and reference Air Force or Air Force Medical Operations Agency. However content related to ICD-10 and AHLTA applies throughout the Military Health System.

Questions about diagnosis or other coding should be directed to your facility's or Service's coding support personnel.

Click the following link below to find your specialty and begin the training. If you are unable to find your specialty in this list, select a similar specialty and contact your coding support personnel with questions about your specialty.
